- Critical Thinking Collaboration Negotiation
- Search Engine Optimization (SEO)
- Creative Problem Solving

PROJECTS

-  pro.motionwares.com

I built the front-end of the web platform (pro.motionwares.com) using HTML, CSS, JavaScript and React. The project is basically a dashboard to get the profiles of digital professionals.
-  <https://cbtpal.com>

This project is a platform to create Computer Based Test(CBT). Users of the platform which are mostly people in the education sector, can create and manage assessments for their students on the platform. I worked as the front-end developer implementing designs to code.

INTEREST

- Reading

Patience Adajah

Front-end Software Developer

PERSONAL PROFILE

I am a result oriented software engineer with years of experience with front-end technologies. I have a knack for building and optimizing interactive user-friendly and feature rich websites. I pay strong attention to details to deliver efficient web solutions. Over the years, I have worked with HTML, CSS, Bootstrap, JavaScript, React and NextJs.

WORK EXPERIENCE

Software Engineer

Motionwares Digital Solutions (Abuja) | November, 2019 - Present

- I worked as a front-end engineer, implementing designs to code.
- Built projects that were responsive across screens of different sizes and compatible across web browsers.

Intern Software Developer

Yatice Digital Solutions (Ibadan, Oyo State) | May 2019 - September, 2019

- Developed the backend of an ASP.NET MVC application (examtone.com) using the C# language.
- Designed and developed the database for a project using MS SQL server.
- Performed API testing and documented the results.
- Remedied bug reports and handled other user issues.

International Development Intern

Dataville Research LLC (Remote) | January 2019 - April 2019

- Gained hands-on experience with mobile data collection and analysis using Open Data Kit (ODK).
- Developed request for proposal (RFP) documents for donor-funded projects.
- Collected and analyzed data for better decision making with data analysis software (Microsoft Excel and SPSS).
